

Pensiero Infinito 2005

The grapes belong to our oldest vineyard of Chardonnay. The project starts with the harvest 2005, the must ferments in French oak barrels for about fifty days, then, in the same environment, the malo-lactic fermentation occurs. After the fermentations, the long period of enrichment in dried extracts, in pulp and in the intensity of the taste takes place, thanks to weekly batonnages, for thirty months, without racking off.

We produced 1000 magnums and there won't be any other formats. Magnums will be numbered in a progressive way, from n°1 to n°1000 and they will have single packaging in solid wood.

The name of this Chardonnay in pureness will be "Pensiero Infinito", which means "infinite thought", because every year it will have a different label, reproducing a painting which will represent a moment, a person, an event or a place which our family does not want to forget.

«For the future, the label will sweep also through international events and personalities, but this first label could represent only a subject: Emiliana and Angelo Accomo, my parents. A couple that, in fifty years of agricultural activity, has known only the hard work. Besides cultivating the vineyard, they have been able and clever in bringing up an honest and hard-working family.

Thank you Mum, thank you Dad».

Beppe Accomo
